my Featured Section ||

Greater Vancouver Metropolitan Area

Summary

Traditionally, this should be a long bio. But frankly, I'm at the point where I want to create impact. Let my work do the talking! Oh and I absolutely believe "You too can do great things from a small place."

Experience

The University of British Columbia

11 months

Project Data Analyst

May 2026 - Present (3 months)

Vancouver, BC

- Data cleaning & preprocessing, including standardization and migration of on-premises university data for ingestion into analytics platform.

Development and Alumni Engagement Ambassador

September 2025 - April 2026 (8 months)

Vancouver, BC

- Support UBC Development & Alumni Engagement initiatives by assisting with alumni outreach, donor relations, and engagement events.

- Work collaboratively with staff and ambassadors as a professional representative of the University of British Columbia, using interpersonal and communication skills to support positive alumni experiences.

AI For Kids

Founder

October 2024 - June 2026 (1 year 9 months)

- On a mission to ensure children, parents, educators and teachers understand the foundations of Artificial Intelligence, the risks and potentials involved. And through this, leverage AI safely and responsibly for promoting creativity, growth and education.

- ▶ Leading cross-functional collaborations with schools, partner organizations and NGOs to inspire the next generation of African children to be creators and not just consumers.

AMDARI

Head of Internships & Data Professional

December 2024 - April 2025 (5 months)

Alberta, Canada

- ▶ Pioneered data-driven quality control processes to evaluate technical intern projects, identifying areas for continuous improvement in training delivery and program outcomes.
- ▶ Directed the daily operational activities for the Remote Apprenticeship Virtual Experience (RAVE) team, leading over 150 interns and aligning project delivery with high-level company goals.
- ▶ Supervised specialists across multiple technical domains, ensuring the delivery of high-quality training and real-world guided solutions.

Xterns by Darey.io

Data Analytics and AI Engineer

October 2024 - November 2024 (2 months)

Lagos State, Nigeria

- ▶ Collaborated in engineering AI algorithms for skill tracking and personalized learning paths, including a semantic comparison system for user assessment.
- ▶ Researched AI advancements to improve platform capabilities for over 100 learners.

DSNai - Data Science Nigeria

Data Scientist (AI Research & Innovation)

March 2024 - October 2024 (8 months)

Lagos State, Nigeria

- ▶ Contributed to the development of social-impact AI solutions, including a Retrieval-Augmented Generation (RAG) system utilizing LLMs and LangChain for streamlined query answering.
- ▶ Collaborated on the deployment of a data-driven chatbot solution providing vital reproductive and maternal information for communities in northern Nigeria.

Nebiant Analytics

Data Scientist

June 2024 - August 2024 (3 months)

Ikeja, Lagos State, Nigeria

- ▶ Created comprehensive curriculum and video resources to reduce entry barriers for Africans transitioning into the Data Science.
- ▶ Developed advanced instructional resources for Excel and data analysis to enhance learners' technical proficiency and analytical skills

10Alytics

1 year 6 months

Senior Data Scientist

April 2023 - February 2024 (11 months)

Manchester Area, United Kingdom

- ▶ Directed the full-stack data science division, managing intelligent reporting and the provision of data-driven solutions for global partners and clients.
- ▶ Facilitated data science masterclasses for over 1,000 individuals across Africa, Europe, and North America, focusing on data preprocessing, visualization, exploratory data analysis, machine learning and insight generation.
- ▶ Coordinated monthly technical cohorts, hosting review sessions on data processing using Python, SQL, Tableau, and Excel.

Data Scientist

September 2022 - March 2023 (7 months)

Manchester

Coordinated the monthly data science cohorts, managing the engagement of over 1000 enthusiasts across Africa and Europe.

EdoInnovates

5 months

Data Science Intern

September 2022 - December 2022 (4 months)

Benin City, Edo, Nigeria

Trained over 70 persons on Data Analysis and the Structured Query Language(SQL), educating them on the writing of queries and techniques in querying your data.

Intern

September 2022 - September 2022 (1 month)

Benin City, Edo, Nigeria

Trained over 200 adults on the basics of spreadsheets applications; Microsoft Excel and Google sheets. Provided an understanding of the tools, functions and methods utilized in analyzing and visualization of tabular data.

Tutor

August 2022 - August 2022 (1 month)

Benin City, Edo, Nigeria

InoKiTech Kids Bootcamp:

Tutored over 91 children within the ages of 6-11 on the basics and introductory concepts of computer programming using Google's computer science curriculum for Scratch. They had an understanding of the processes involved in writing codes and fixing bugs.

EdoInnovates

Data Science Entry Level Intern

March 2022 - June 2022 (4 months)

Benin City, Edo, Nigeria

- Acquisition of practical knowledge on data science, procedures of data cleaning, exploration, and visualization with python. Creation of dummy models for tackling regression and classification tasks. Understanding of Entity Relationship Diagrams and querying of data with the Structured Query Language (SQL). Data visualization and analysis with PowerBI and Microsoft Excel.
- Working in a team of eight (8) persons in analyzing data obtained from Nigerian graduates, determination of a business problem from the data and proffering data driven solutions and presentation of findings to the administrators at Edo Innovation hub.

The Build Links Limited

Intern

April 2021 - July 2021 (4 months)

Lagos, Nigeria

Had the privilege of having my undergraduate internship with The Build Links Limited at Victoria Island, Lagos. I obtained an understanding of the pile drilling process for deep foundations.

Role:

- Organization of the site office and documents, recording changes and progress of construction procedures daily. Ensuring copies of the drawings were available for construction updates.
- Supervision of the pile drilling process to ensure that the mast and the drilling pipes were vertically aligned, and the drilling bit entered directly above the peg.
- Documentation of the Pile Integrity Test (PIT) to keep track of the piles tested.
- Recording of tools and construction materials used daily.

University of Benin

Student Vice President

March 2018 - June 2019 (1 year 4 months)

Edo State, Nigeria

Vice President of the "Association of Civil and Structural Engineering Students", University of Benin Chapter; with the responsibility of coordinating the activities of the student body and serving as a middle man between the institution and the student body.

Yisab Nigeria Limited

Student Intern

February 2019 - March 2019 (2 months)

Edo State, Nigeria

Due to the restructure of Federal Polytechnic Auchi, various faculties and departmental lecture halls' constructions were launched. I acquired basic knowledge on setting out, landscaping, block work, foundations, form works, steel truss roofing system and the various finishes employed in concrete structures.

University of Benin

Student Intern

September 2017 - October 2017 (2 months)

Edo State, Nigeria

Every year, the University of Benin facilitates an industrial training for first year engineering students transitioning to their second year with the sole aim of welcoming students into the Faculty of Engineering. This experience gave a clear insight and introduction of my course work.

Education

The University of British Columbia

Master of Data Science - MDS · (September 2025)

University of Benin

Bachelor of Engineering - BE · (2016 - December 2022)
